Full-Stack Web Developer | MERN & Django Specialist

Impact-focused full-stack developer with hands-on expertise in MERN and Python/Django ecosystems. Authored, deployed and maintained 5+ production-grade applications, architecting RESTful APIs, tuning MongoDB/PostgreSQL. Quick to adopt new technologies—demonstrating rapid learning and production-ready application of frameworks such as Next.js, Vue and Angular—and leveraging modern workflows, including targeted AI-assisted tooling, to accelerate delivery while upholding maintainable, high-quality code.

Skills

Frontend Development

- HTML, Css, Javascript, Typescript, Python
- React, Redux, Angular, Bootstrap, Sass, JQuery
- Responsive design and touch screen interaction
- Git Version Control
- Unit testing, integration testing, end-to-end testing
- Continuous Integration
- Functional and Object oriented programming
- Mobile Apps (React NAtive, expo)
- Progressive Web Application
- Illustrator, Photoshop, InDesign, AdobeXD and Figma

Backend Development

- NodeJS, Express and Django
- APIs (JSON, RESTful, Postman)
- Hosting and Web Services (AWS, Google Firestone, Heroku, Netlify)
- Relational and non relational databases (MongoDB, PostgreSQL)

Education

- Full Stack Web Development, CareerFoundry, December 2024 - May 2025
- Training course "Expert for european Ventures" from the comunity of international organization (SIOI) 10.2009 - 11.2009
- Training course for diplomatic career of the "Italian comunity for international organization" of the Ministry of Foreign Affairs 10.2008 - 06.2009

Web Development projects

Job Tracker - personal project, september 2025

- Full-stack application: React + TypeScript frontend, Express + TypeScript backend, MongoDB database, stack job tracking dashboard with advanced analytics, custom fields, and import/export capabilities.
- Secure, responsive, and user-friendly SPA with robust authentication and admin controls, modular code structure (controllers, routes, context, CSS modules), secure API endpoints with CORS and environment variable management and import/export: CSV, Excel, and PDF support for job data.
- Deployed and maintained production-ready services using Netlify and Heroku, ensuring seamless frontend-backend integration and SPA routing.

MyFlix - CarrerFoundry, Marz 2025

- Developed MongoDB, a non-relational movie database, with a REST API built using Node.js, Express, and Mongoose for efficient data interaction. Tested endpoints with Postman, documented features, and deployed on Heroku.
- Designed two responsive single-page applications:
  - React-based (MVC design pattern)
  - Angular-based (Angular Material for UI)
- Users can create accounts, browse movies, and save favorites, ensuring an intuitive experience. Demonstrates expertise in full-stack development, API architecture, and modern front-end frameworks with a focus on usability and scalability.

Meet App - CarrerFoundry, May 2025

- Developed a Progressive Web Application (PWA) using React, enabling a responsive, cross-platform, and offline-capable experience with Google Calendar integration for event visualization.
- Followed Test-Driven Development (TDD), implementing unit, integration, and end-to-end tests (Jest, Cucumber, Puppeteer) for reliability. Built serverless functions with AWS Lambda for authentication via OAuth.
- Applied Agile methodologies with a Kanban board, optimizing workflow and collaboration. Showcases expertise in modern web development, cloud computing, and automated testing with a focus on scalability and performance.

Master in International Relations.
University "La Sapienza" di Roma
Italy,
2001 - 2008

Soft Skills

- Analytical Problem Solver: Quickly identifies challenges and innovates efficient, scalable solutions that drive project success.

- Effective Communicator: Bridges technical and non-technical teams with clear, concise dialogue that enhances collaboration.

- Adaptive Learner: Embraces emerging technologies and agile methodologies, consistently elevating performance in dynamic environments.

- Team-Oriented Leader: Fosters positive teamwork, ensuring every project benefits from diverse perspectives and shared commitment.

Language Skills

Italian	Native
English	C1 - Full Professional Proficiency
German	B2 - FAB-Zertifikat
Spanish	B1 - Basic working proficiency

Professional experience

LG Energy Solution - Custom Care Tech Support
April 2023 -September 2024

- Customer Support and Issue Resolution – Managed complaints, assisted with product installation, and provided guidance on app usage.

- Technical Coordination – Acted as a liaison between installers and the technical department, overseeing service interventions and assistance tickets.

- Administrative Support – Conducted billing verification, managed recall programs, and performed data entry for logistics.

Frantoio in Villa, Italien (Foggia and Vecchiano, Pisa)
2019 - 2023

- Pioneered bilingual social media campaigns: Launched and managed creative marketing initiatives in Italian and English, driving heightened brand awareness and engagement across diverse digital communities.

- Optimized website performance: Provided proactive support and enhancements, ensuring seamless navigation and a superior user experience that reinforced the brand's online image.

- Streamlined order processing operations: Revitalized workflows to accelerate transaction times and boost overall customer satisfaction, contributing directly to improved sales efficiency.

- Advanced targeted SEO strategies: Engineered SEO improvements in both Italian and English, successfully elevating organic search rankings and amplifying digital visibility.

Founded and propelled LUDAV srl (Export italian olive Oil)   2019 - 2023

- Launched an export Italian olive oil brand and drove its comprehensive brand development by crafting captivating label designs, engaging website content, and dynamic online marketing campaigns.

- Optimized end-to-end operations: Directed meticulous olive selection, streamlined transportation and bottling processes, and managed logistics plus billing to ensure quality and operational excellence.

Post-Course Internationalization Internship at Mondimpresa Italy, Rome   01.2010 - 07.2010

- Applied academic insights to drive the EU expansion of medium-sized companies, delivering strategic market entry recommendations and actionable analysis.

- Collaborative Industry Engagement: Partnered with the online magazine Merlino to communicate cutting-edge trends and best practices in international business, bridging theory with real-world impact.
